

Docking

Last Updated Monday, 18 January 2010

Waiting List Procedures

- To be placed on a waiting list, please contact the office.
 - For each lot paying full dues, you may be on no more than three docking area lists at one time.
 - Only "non-waterfront" property owners are eligible for public docking.
 - When a dock is obtained, a boat sticker must be purchased even if you do not own a boat at the time.
 - As docks become available in each of the docking areas, they will be offered to the property owner at the top of the list. If a dock is not compatible to the boat configuration, the property owner may remain at the top of the list for a second assignment. If the property owner should refuse the second offering, their name will then be moved to the bottom of the list.
 - There is a one time only dock Initiation fee of \$250.00 for first time dock renters plus the \$100.00 annual dock fee.
 - For anyone leasing association docks, please remember you cannot have a boat over 8 feet wide. The docks will not accommodate a boat any larger.
 - If you would like a boat lift, you will need to contact the office and apply for a permit. Not all dock areas are suitable for lifts. The permit costs \$ 35.00. You must have LMPOA approval and the permit before the installation of your lift is permitted!
- In order to provide property owners with the most recent and accurate information, a downloadable PDF document will be available of the entire official waiting list. Be sure to check back regularly for the most recent list. [Click here to download](#) - Last updated 1/18/2010
